INFANTILE PARALYSIS EPIDEMIO IN NEW YORK

Despite the Most Strenuous Efforts of The Board of Health the Epidemic Still Grows.

Despite the steps that have been taken by the Board of Health to curb the epidemic of infantile paralysis that has been raging in New York for several days, the new cases show a daily increase. The last report shows that there had been 809 cases and 202 deaths in New York City and vicinity. Chicago and Illinois, 17 cases and one death. In New York state, outside New York City, 45 cases. There was one case in Kansas which resulted fatally.

So far there have been no cases in Missouri but the boards of health of Kansas City and St. Louis fear that unless the greatest care is taken those cities may be visited by this terrible scourge. The figures show that the disease is much more virulent than the 1907 epidemic.

From Company B.

Editor Times—Please to extend our thanks to the people of Bates county for their hospitality and liberality toward the company. For the motor truck and all the good things to eat which were sent to the camp at Nevada, and to assure them that their presence in camp on visits were noticed and appreciated as showing their interest in the boys from Bates county.

Very sincerely,
The Boys of Co. B.

TO DROP MARRIED MEN FROM GUARDS

Those Who Have Dependent Relatives May be Discharged.

Washington, July 7.—All department commanders have been authorized by Secretary Baker to discharge all enlisted men of the national guard in the federal service, who have one or more dependent relatives.

Orders to the department commanders made public yesterday, give them full power to consider applications and direct that discharge be granted where the circumstances warrant. They also provide that recruiting and mustering officers shall be instructed not to accept recruits with families dependent upon them for support.

Secretary Baker and his advisers at the war department decided that this step was imperative to meet appeals that have been flooding the department, whose families have been left destitute by the president's call upon the state forces for service on the Mexican border.

Buy Horses for U. S. Now.

The activity of the early days of the European war have returned to the horse market, but this time the United States government is the buyer. The quartermaster's board, stationed at Kansas City, is buying its part of an order for 65,000 horses.

The horses are being rushed to the remount stations on the border, and because of the peculiar climate conditions in Mexico, Western horses of the cow pony type are being accepted.

The country's surplus horses went to Europe to mount the armies of Kitchener and the French Republic. Prices are higher, consequently, than two years ago.

Miss Hattie Deacon Stricken With Paralysis.

Friday afternoon just as Miss Hattie Deacon, who was on her way to the office of Dr. Chastain, had reached the top of the stairs in the American Clothing House building she reeled and fell to the floor. Mr. Bowman and his stenographer, who witnessed the fall went to her assistance and she was taken to the office of Dr. Chastain, where she was given emergency treatment and later taken to her home where she is in a very serious condition, her entire right side being paralyzed.

Miss Deacon is one of the best known and respected women in Butler and she has a host of friends who hope for her early restoration to health.

Gov. Johnson for the Senate.

San Francisco, July 8.—Governor Johnson, in an address to California Progressives in convention here late this afternoon, virtually announced his candidacy for the United States senatorship.

He said: "I don't want to be a candidate for the Senate, but if it's necessary to keep alive this movement, if it be my duty to go forward, I am ready to do the best that lies in me for success."

Johnson urged the Progressives within the Republican and Democratic parties to bring those two to the principles on which the Progressive party was founded.

Beaty-Fix.

Homer Beaty, a prominent resident of Drexel, Mo., and ex-postmaster of that place, and Miss Elizabeth C. Fix, a charming young lady of Rockville, were united in marriage at Nevada Monday afternoon by Rev. J. E. McDonald at the Centenary parsonage. After the ceremony Mr. Beaty and bride exercised the best of judgment by motoring to El Dorado Springs to spend their honeymoon. They expect to remain here until the latter part of the week, when they will go to Drexel, where they will be at home to their numerous friends. Mr. Beaty is no stranger to El Dorado, having resided here for some time about nineteen years ago, and he has made numerous visits to this city since that time.—El Dorado Springs Sun.

A Swimming Pool for Butler.

H. S. Wyatt of the H. S. Wyatt Lumber Company, and several other prominent business men are planning the organization of an athletic association for this city. The plan is to organize a stock company and sell 150 shares at \$10 each to raise money to build and equip a swimming pool and bath.

W. F. Duvall, president of the Farmers Bank, has offered the free use of a lot he owns on Ft. Scott and Water streets. The lot was formerly a stone quarry and very little excavating would be required to make a fine pool.

It is to be hoped the plan will go through as Butler has long needed a place of this kind.

Mexicans Turn on Carranza.

Douglas, Ariz., July 7.—Anti-Carranza sentiment is becoming apparent among Mexicans residents in portions of Sonora, as a result of the friendly tone of the last note sent to Washington, according to Mexicans reaching here today from Naco, Arizona, seventy-five miles south of the border. Naco, they said, was crowded with refugees from the United States and from the interior of the state.

These Mexicans confirmed reports previously received from Fronteras and Cabullona that the Mexican soldiers at these points, as well as civilians, have been placed on limited rations.

"Drys" to Nominate Ford.

Chicago, July 8.—Eugene W. Chafin, twice nominee of the Prohibition party for President, announced on his arrival here today that he will work for the nomination of Henry Ford for President at the Prohibition national convention at St. Paul week after next. V. G. Hinshaw, chairman of the Prohibition national committee, has had an interview with Mr. Ford and announced that Mr. Ford's views on the liquor question were satisfactory to the national committee.

That Mr. Ford would accept the nomination was taken as a foregone conclusion by Mr. Chafin.

Mexican Flag Hauled Down.

Chickasha, Ok., July 6.—A regiment of the New York militia, which passed through here last night on way to border, hauled down a Mexican flag and put to rout a band of 20 Mexicans 20 miles north of here in the afternoon.

The Mexicans were at work on the railroad. They hoisted a Mexican flag on their tent and cried, "Viva la Mexicana!" as the troop train drew in at the station. This angered the soldier boys who rushed from the train and tore down the Mexican flag and chased the Mexicans out into the country several miles.

Storms Caused Great Damage.

Atlanta, Ga., July 8.—A series of storms, rains and tornadoes following in the wake of the tropical hurricane caused damage to property, crops and roads estimated at between three and five million dollars in Alabama, Georgia and Mississippi and caused six deaths and injured scores of persons. All the dead are negroes except one man, an engineer whose engine turned over in a washout near Bond, Miss.

For Sale.

3 houses and lots in Butler, Mo., and my picture show. Will sell at a bargain if taken before August 1st, 1916.

TROOPS LEAVE CAMP CLARK

Third Regiment, from Kansas City, the Last to Go.

After three weeks of military activity, the government reservation at Camp Clark is practically deserted, the last unit of the Missouri national guard, the Third regiment, having entrained Saturday night for Laredo, Tex., only the quartermaster's corps, in charge of Major A. V. Adams, being left at the camp.

It required two trains to carry the Third regiment, consisting of about 900 troops. The trains were routed over the M. K. & T., the first leaving at 12:10 Saturday morning and the other two hours later.

The soldiers broke camp after supper, but it was several hours before the railroad equipment was ready for the men to get their supplies aboard.

GENERAL NOTES

Great Britain is now making 9,000,000 pairs of boots for the Russian government, they are to be stamped "Made in England" in Russian characters.

Decision not to report the resolution urging President Wilson to intervene to save the life of Sir Roger Casement was reached Saturday by the senate foreign relations committee.

Nearly 40,000 women in Great Britain have been made widows by the war. As a result of the recent naval battle 1,550 widows were added to the list of women receiving pensions.

Miss Jeannette Rankin, of Missoula, Mont., a suffragist, announced herself Saturday as a candidate for Congress on the Republican ticket. She is the first woman in the state to run for the office.

New York city's population is 5,334,000 according to figures issued by the census bureau. There are eight cities of more than 500,000 inhabitants; 10 with more than 300,000, but less than 500,000, and 43 with between 100,000 and 300,000.

The Vorwaerts reports that in Chemnitz, Germany, a "song of hatred" on Lord Kitchener's death is being publicly distributed and sung in music halls. The composer is a member of the staff of one of the most esteemed Chemnitz newspapers.

Four cases of infantile paralysis were discovered in Standard, Putnam county, Illinois, and steps were taken immediately by the state board of health to avert an epidemic of the disease. An investigation was started to trace the source of infection.

"Kid" McCoy, the well known heavy weight pugilist, a member of the New York national guard now in camp at McAllen, has been promoted. He has been assigned to the staff of Brig. Gen. G. R. Dyer as an orderly and today assumed his official position.

President Wilson is expected to look to an Eastern state, probably New York, for the new associate justice of the supreme court to be chosen to fill the Hughes vacancy. The fitness of ex-Secretary of War Garrison for the position has been discussed by some Democratic leaders in Washington.

From two to three hundred Carranza soldiers and camp followers were massacred by Broncho Yaquis early last week in lower Sonora, according to stories told by arrivals in Nogales, Ariz., from that part of Mexico. Those of the de facto detachment not killed by gun fire, it is said, were burned at the stake.

A meeting of the state central committee of the national Progressive party at Detroit, Friday afternoon, the action of the national committee in endorsing Charles E. Hughes was repudiated. The committee declared for the perpetuation of the party and the entering of complete state and local tickets in the coming campaign.

While rummaging through the effects of the late Mrs. Alpheus Michaels, an aged woman of Morgantown, W. Va., who was thought penniless, Mrs. F. L. V. Marsden, her niece, of Albright, found a "pot of gold" totaling \$5,500. The jar containing the gold was among a lot of other jars filled with fruit. It was sealed and labeled "Blackberry Jam."

An embargo on the exportation of print paper, paper pulp and pulp products to any foreign country was proposed in a bill introduced in the house Saturday by Representative Dillon of South Dakota as a means of meeting the scarcity of paper in this country. The bill would authorize the president to raise the embargo by proclamation when the price of paper products to the consumer in the United States is "fair, reasonable and just."

Notice to Farmers.

Owing to the impossibility of getting sacks as well as the prohibitive price the elevators and mill will not be able to furnish sacks for handling grain.

Find House 5,000 Years Old.

Field Headquarters, Mexico, July 3, (by courier to Columbus, N. M.) July 7.—American soldiers unwittingly became archaeologists today while digging a rifle trench, by uncovering an Indian house believed to be at least five thousand years old.

The site is said by authorities among the expeditionary forces to have been the dwelling place of a prehistoric race, forerunners of the Aztecs. The population of the ancient city, it is believed, consisted possibly of several thousand persons.

Notice.

There will be an ice cream supper at the Double Branch Church on the evening of July 20th, 1916. Everybody is urged to keep this date open, and come prepared to spend a pleasant evening and to keep cool.
